REPORT OF FOREST FIRE WARDEN

To the Citizens of Sutton:

Our forest lands represent a substantial proportion of the town's valuation. They provide income to our citizens, from the sale of forest products and through employment to woods' workers. The protection of our forest lands is essential to the continued welfare of the town. Fire is the forests' worst enemy. It not only destroys the growing crop but leaves the land in such condition that nothing of value will grow for a long period of years. In addition it costs good tax money to extinguish forest fires.

An analysis of forest fire records indicate that 97 percent are man-caused and consequently avoidable. Carelessness and failure to comply with reasonable regulations governing the building of fires in and near woodlands has been costly to both towns and individuals. Through elimination of the human equation, forest fire losses would be reduced to a minimum. This is possible if every citizen would be careful, familiarize himself with burning regulations, comply with them and then use proper discretion.

We have been particularly fortunate in this town since the hurricane in not having had more serious fires. This is due in part to the strictness of our wardens in issuing permits and splendid cooperation on the part of the public. Great care is needed be-

cause conditions in our blown-down areas are more critical with down material drying out and becoming more highly inflammable. The continued cooperation of every one is necessary.

We should all remember that:

1. Written permission of the local forest fire warden to burn brush, rubbish or other debris in or near woodlands or where fire may be communicated to woodlands is necessary when the ground is not covered with snow. Violation of this requirement makes the responsible party liable—

a. To a fine not to exceed five hundred dollars or imprisonment of not more than one year or both.

b. To the town for expenses incurred by the warden or deputy warden in attending or extinguishing such fire.

c. For damages to abutting owners if the fire runs onto the abutters' property.

2. It is a violation of the Forest Laws of the state to—

a. Drop or throw any lighted match, cigar, cigarette, live ashes or any other substance liable to cause fire, from any vehicle while the same is upon a public highway or private way.

b. Drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.

Violation of these prohibitions penalizes whoever is found guilty by a fine of \$25.00.

3. You should promptly notify your local forest fire warden of any fires you see.

4. The forest laws are being more strictly enforced each year.

Your cooperation will save the warden considerable worry; you and your town much trouble and expense.

The 1940 fire record for our town follows:

Number of fires	3
Acreage burned	3½
Cost of suppression	\$58.85
Number of permits issued	11

H. L. PILLSBURY,
Forest Fire Warden.

The foregoing tabulation shows that the district had the full 360 half-days of attendance required by law. There was a considerable increase in the number of pupils registered in the district, a total of 20 more than the previous year. The percent of attendance was good but not as good as the year before. The tardiness per pupil remains about the same. In addition to the 99 pupils registered in the district, there were 18 elementary and 21 high school pupils attending schools outside the district. This makes 138 pupils residing in the district and attending public schools; this is an increase of 17 over last year.

The old chemical toilets at North Sutton school are in such a condition that they cannot be used another year. The budget for this year should include a sufficient amount to make possible the purchase and installation of new septic toilets for this school. The interior of the building at North Sutton and the Mills also need to be repaired.

Last year a new set of encyclopedias was purchased for each school, and new toilets installed at the South.

A special district meeting was held in the summer for consideration of a plan to classify the schools of the district with Grades 7-8 at the South, Grades 1-2-3 at the Mills and Grades 4-5-6 at the North. On account of the increased cost of transportation it was voted not to raise and appropriate any money for this purpose. However, several citizens spoke favorably of a plan to build a centralized school in the district in the not too far distant future. We hope that this plan will receive the thoughtful consideration of all the voters of the district. With only three grades in a room, a teacher will have more than

twice as much time to devote to each class as she has with eight grades. Teachers who have specialized in teaching lower or upper grades may be hired. The older pupils are separated from the first graders. These are only a few of the advantages of a graded school—to secure these, a new three-room building is needed, one comparable with the new town library in convenience and efficiency.

We thank parents, teachers and the school board for their continued support and cooperation in the interests of the schools of the district..

Respectfully submitted,
JOHN A. SINCLAIR,
Superintendent of Schools.
